

# TruStain™

## for TruGrain and Simona Wood

## HIGH PERFORMANCE STAIN/COATING

**TruStain™ creates a molecular bond to both TruGrain and Simowood substrates.** This eliminates the potential for inter layer failures common with more traditional stain/clear coat systems.

By integrating heat reflective pigments into AquaSurTech's proprietary resin, both color and protection are incorporated into a single simple to apply layer. The **heat reflective properties of the pigments reduce the temperature of the surface** and retains color longer than conventional pigments.

TruStain™ is a **water based, odourless, ultra-low VOC** designed to bond to composites, fibreglass and PVC... so you can match your project with other elements such as trim and windows and doors ( fibreglass or steel ).

**AquaSurTech  
OEM**

Design created by : MR walls & floors

**TruStain™**

## TruStain Features/Benefits

TruStain is a single component - the molecular bond eliminates the potential for inter layer failures common with stain/clear coat systems

Brushable or Sprayable (2 viscosities are available)

Coverage is approximately 250 square feet per gallon ( 6.5 meters squared per litre )

Fast Air Drying - 20 minutes for flash, dry in 2 hours

Heat Reflective - lower temperatures and less fade (delta E of less than 1 after 3,000 hours accelerated weathering with Xenon Arc - ASTM G155 )

High flexibility resin results in excellent wear and impact resistance - TruGrain can be cut after finishing

Meets AAMA 615-13 test standard

Environmental performance is market leading - 20 g/litre VOC, lead , chromate, isocyanate and NMP FREE

Wear Tested (ASTM D4060-14, *Standard Test Methods for Abrasion Resistanvce of Organic Coatings by the Taber Abraser*)

Odourless application with water clean up

**Warranty : 15 years for Siding**

**Application :** Simple on-site application by Brush or Spray OR factory applied via Flow Coating or Spraying  
AquaSurTech can connect you with a local certified applicator if you require application services

## Stock Colors

1050 PALE GOLDEN	1051 BURMA	1052 DARK BURMA	1053 SIAM
1054 DARK SIAM	1055 AGED TEAK	1056 JAVA	1059 DARK TAUPE
1060 CAPE COD	1065 WALNUT	1067 DARK GREY	1068 MAHOAGANY
1069 PALISANDER	1071 CONCRETE GRAY	1072 BRIGHT RED	1077 ANTHRACITE GREY
	1078 BLACK	1079 WHITE	

**Custom colors available**
